DETAILED ACTION

1. As additional rejections are required in this application, the Examiner hereby reopens prosecution.

Election/Restrictions

2. Claims 3-8 and 11-14 are still withdrawn from consideration in this application.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 2, 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. The terms "highly water-soluble" and "swelling rapidly" in claim 1, from which claims 2, 9 and 10 depend, are relative terms which renders the claims indefinite. The terms "highly" and "rapidly" are not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It is unclear how water-soluble the diluent must be to meet that claims. It is also unclear how rapidly the dry bead must swell in order to meet the claims.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, 35 U.S.C. 103(a) as being unpatentable over Cohen et al., for reasons cited in previous actions.

8. Claims 1, 2, 9 and 10 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, 35 U.S.C. 103(a) as being unpatentable Jederström et al., for reasons cited in previous actions.
